

Curve Securities’ vision is to create opportunities that elevate our clients performance. Our business has very much been shaped by the technological age and we are able to elevate our clients’ performance by utilising technology to provide an automated and streamlined process to secure the best opportunities for councils to invest in.

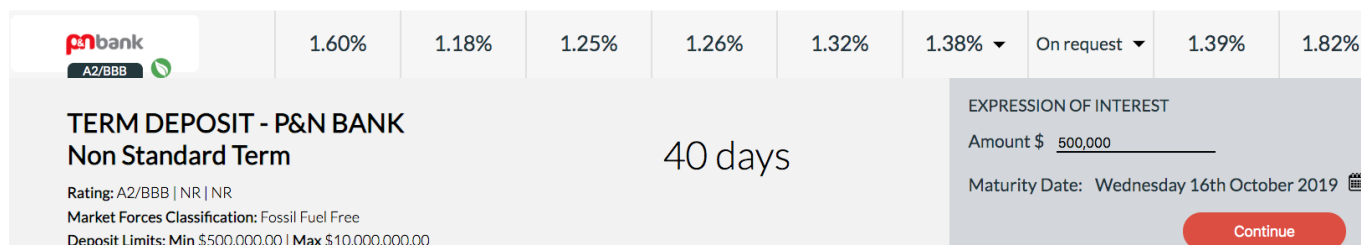

We aim to constantly work with our clients ever changing needs and to do this, we need to understand their needs, experiences, and pain points. It is due to this understanding that in July 2019 we launched Yieldhub, a free to use online rates aggregator, which streamlines the investment process by highlighting the best opportunities available on any given day. It aggregates rates from over 80 ADIs and due to our close relationships with our ADI partners, we are also given access to specials that aren’t available to the public. All products and rates are clickable, filterable (by credit rating, term, fossil fuel status) sortable and interactable, and expressions of interest in an opportunity (for both carded rate and specials) can be sent in just a few clicks.

“Having a complete overview of investment opportunities and being able to filter in accordance with our compliance policies, has saved our team a lot of time and avoided hassle.”

-Finance Manager, NSW Council

Whilst only recently transitioning our clients onto the Yieldhub platform, over 300 individuals from over 80 local government bodies across Australia are already using the platform. We have reported 100% customer satisfaction and on a daily basis receive positive customer feedback in relation to improved time and workflow efficiencies, ease of use, and auditor-friendly diagnostics.

The screenshot displays a user interface for a term deposit. At the top, there is a navigation bar with interest rate options: 1.60%, 1.18%, 1.25%, 1.26%, 1.32%, 1.38% (selected), On request, 1.39%, and 1.82%. Below this, the main content area shows:

- Bank:** P&N Bank (A2/BBB)
- Product:** TERM DEPOSIT - P&N BANK Non Standard Term
- Term:** 40 days
- Rating:** A2/BBB | NR | NR
- Market Forces Classification:** Fossil Fuel Free
- Deposit Limits:** Min \$500,000.00 | Max \$10,000,000.00
- EXPRESSION OF INTEREST:**
 - Amount: \$ 500,000
 - Maturity Date: Wednesday 16th October 2019
- Action:** Continue

"Yieldhub makes investing easy. Being able to review the rates and options available for investing in one single website, saves time and makes the entire process simpler."

-CFO, WA Council

Yieldhub was created to continue to elevate our clients performance, assisting them find and secure the best interest rates possible in accordance with their compliance & investment policy requirements. Currently, Curve Securities assists over 200 government bodies across Australia invest their surplus funds and with the launch of Yieldhub, we are committed to continue to assist government bodies with their investments.

"Service at Curve Securities has always been unparalleled. They make investing a breeze, placing requests for quotes on our behalf, liaising with ADIs, looking after our paperwork and doing all the hard work for us. And now that they've launched Yieldhub, it's made it easier than ever."

-Finance Manager, VIC Council

The banner features a laptop in the foreground showing a financial dashboard with various charts and data. In the background, office workers are seen in a collaborative environment. The text on the left side of the banner reads:
