### 2023-24 financial audits

#### Model financial report and performance statement

LGV released the 2023-24 model financial report and performance statement on 23 February 2024.

Councils are encouraged to prepare shell accounts prior to 30 June 2024.

#### Key areas of focus:

##### Financial report

- Valuation of land, buildings and infrastructure assets
- Government funding
- Provision for landfill
- Information technology controls as they relate to financial reporting

##### Performance statement

- Compliance with the model performance statement, noting there are changes to the indicators to be audited
- Systems in place to capture financial and non-financial data underpinning the reported results

### Valuation of land, buildings and infrastructure assets

We recommend that finance teams, prior to 30 June each year, prepare and present a paper to their audit and risk committee that outlines:

- the requirements of the council's accounting policy with respect to property, infrastructure assets, plant and equipment
  - ❑ the asset capitalisation threshold
  - ❑ which asset classes are recorded at cost v's fair value
  - ❑ the frequency of assets valuations
- date of the last independent valuation by asset class
- their approach to assessing the fair value of each class of property, infrastructure assets, plant and equipment in the current year
  - ❑ the asset classes scheduled for an independent revaluation in the current year v's those subject to a desktop valuation
    - reference point for a desktop valuation (i.e. Rawlinsons construction guide or ABS producer price indice)
  - ❑ how asset condition data is captured and considered in the fair value assessment
  - ❑ key assumptions being adopted
  - ❑ key milestones being worked towards
- likely outcomes for the respective reporting cycle (expected movements in fair value relative to the existing carrying amount and resultant impact on the financial report).

### Annual reporting timelines

- The *Local Government Act 2020* requires council annual reports – which includes the audited financial reports and performance statements associated audit reports – to be finalised no later than one day prior to the election in a general election year.
- To meet annual financial reporting timelines, an entity should have a plan that:
  - ❑ outlines its legislative reporting requirements
  - ❑ details tasks to be performed, by whom and when
  - ❑ specifies the resources, milestones, key stakeholders, information systems, materiality threshold, oversight and quality assurance practices it needs to help the staff who prepare it.

### Council election October 2024

- A general Council election is currently scheduled to occur on 26 October 2024.
- In light of an electoral structure review, 39 councils will alter their electoral structure before the October 2024 general election. For further information, refer Electoral structure and ward boundary reviews at:
